

Woman at the center

Clinical Case Competition for Students and Young Clinicians.

The **CURASEPT 4 WOMEN project** is a branch of a broader corporate program called Curasept 4 with the purpose of “telling” stories of our profession that can be an inspiration for our younger colleagues.

In 2022 the project is dedicated to a few and well known women within the dental field who discuss about their own difficulties and success, thus becoming video testimonials of the perseverance and hard work needed in order to achieve their goals in a very competitive and crowded world of oral health.

In the project **CURASEPT 4 WOMEN** the company sponsors in the amount of 3000 euros, two Awards of 1500 euros each, dedicated to Dental Students/ Young Dental Graduates (maximum age 35 years old) and Hygiene Students / Dental Hygienists (maximum age 35 years old).

The awards will be presented by the Italian Society of Periodontology and Implantology (SIDP) for the best clinical or research case dedicated to periodontal pathology in women.

Possible topics of interest:

- Periodontics and pregnancy
- Gingivitis and hormonal profile
- Periodontics, menopause and osteoporosis

The candidates must present an abstract in Italian or English before the deadline.

Deadline for sending the abstract: February 5th 2023

The abstracts must be submitted to the Scientific Committee of the Italian Society of Periodontology and Implantology (**SIDP**) for evaluation.

The acceptance will be communicated to the Secretary of SIDP before **February 18th 2023**.
