

09.30 - 13.30 **SPAZIO RICERCA**

Coordinatori: Filippo Graziani (Pisa), Cristiano Tomasi (Trento)

09.30 - 09.40 **Introduzione**, a cura del Presidente SIdP (Maurizio Tonetti) e dei Coordinatori

09.40 – 10.10 **Sessione STUDI PRE-CLINICI**

Stanozolol: a new approach to bone regeneration with androgenic steroids

[G. Ghiacci](#), S. Lumetti, C. Galli, G.M. Macaluso (Parma)

Biological study of human stem cells action in contact with different implant surfaces

[F. Azzolin](#), E. Salvador, L. Bevilacqua, M. Maglione (Trieste)

Influence of different storage time on cell viability and gene expression of cells derived from human intraorally harvested bone particulate

[R. Guazzo](#), L. Sbricoli, S. Ricci, A. Piattelli, E. Bressan (Vicenza)

Intrabony piezoelectric stimulation enhance bone growth and density during healing and osseointegration of dmlf surfaces

[L. Di Alberti](#)¹, F. Tamborrino², K. Badalyan³ (1 Atessa, 2 Lecce, 3 Moscow)

Discussione

10.10 - 10.35 **Sessione PATOLOGIA**

Aggressive periodontitis: a simple genetic test to prevent the disease. Case control study

[M. Mensi](#), E. Mafezzoni, E. Scotti, M. Baronio (Brescia)

Self-reported measures of periodontal status in a diabetic population

[C. Cadore](#), A. Capra, M.E. Guarnelli, F. Tomasi, R. Farina, L. Trombelli (Ferrara)

Protein survey in periodontal pockets using proteome analysis

[C. Bertoldi](#)¹, M. Martani¹, E. Monari¹, D. Ferrari², C. Pellacani¹, P. Cortellini³, U. Consolo (Modena e Reggio Emilia¹, Melbourne-Australia², Firenze³)

Discussione

10.35 – 11.05 **Sessione TERAPIA PARODONTALE NON-CHIRURGICA**

Radiographic outcome following endoscopic-assisted non-surgical therapy in periodontal infrabony defect. A non controlled retrospective study

[M. Montevocchi](#), S. Samaritani, V. Checchi, M.R. Gatto (Bologna)

Supportive periodontal therapy:clinical and statistical evidence in a "well-maintained" population after 9 years

[A. Pardo](#), G. Lombardo, S. Merlini, D. Antoniazzi, N. Zerman (Verona)

Remaining root substance comparing a new ultrasonic scaling device, hand instrumentation and subgingival air polishing with glycine. An in vivo and in vitro study

[E. Bozbay¹](#), A. Pilloni¹, A. Gokbuget², L. Guida³, S. Cintan², M.S. Aydin² (Roma¹, Istanbul- Turkey², Napoli³)

Locally delivered topical desiccant agent (hybenx®) as an adjunct to ultrasonic debridement in the retreatment of persistent periodontal pockets: clinical and microbiological preliminary results in humans

[V. Gelio](#), G. Lombardo, A. Pardo, C. Flor, N. Zerman (Verona)

Discussione

11.05 – 11.30 Coffee Break

11.30 – 12.05 **Sessione TERAPIA PARODONTALE CHIRURGICA 1**

Single flap approach and enamel matrix derivative: effectiveness in intrabony defects

[A. Simonelli](#), R. Farina¹, L. Minenna¹, G. Rasperini², L. Trombelli¹ (Ferrara¹, Milano²)

Clinical performance of access flap in the treatment of the furcation defects. A systematic review and meta-analysis of randomized clinical trials

[D. Karapetsa](#), S. Gennai, S. Rosini, F. Graziani (Pisa)

Autogenous bone harvested with piezosurgery in association with enamel matrix derivative in treatment of non containing intrabony osseous defects. 24 months clinical-radiological follow-up

[A. Quirico](#), F. Ferrarotti, F. Sanna, E. Ercoli, F. Picollo, A. Graziano, E. Pigella, G.M. Mariani, M. Aimetti (Torino)

The coronally advanced flap plus connective tissue graft in the treatment of multiple gingival recessions: a randomized longitudinal study

[F. Melpignano](#), L. Simonazzi, C. Pellacani, U. Consolo, C. Bertoldi (Modena)

Clinical and biomolecular outcomes of osseous resective surgery using piezoelectric device versus conventional rotating instruments: a pilot study

[S. Pallotti](#), F. Romano, V. Manavella, M. Bottone, O. Gilestro, F. Parducci, L. Cricenti, M. Aimetti (Torino)

Discussione

12.05 – 12.35 **Sessione TERAPIA PARODONTALE CHIRURGICA 2**

Ricrescita dei tessuti molli dopo chirurgia ossea-resettiva con ritenzione di fibre versus chirurgia ossea-resettiva tradizionale. Analisi multilivello

[J. Buti¹⁻²](#), M. Nieri¹, J. Mervelt¹, S. Cincinelli¹, C. Martinolli¹, G. Carnevale³, F. Cairo¹ (Firenze¹, Manchester- UK², Roma³)

Clinical performance of papilla preservation flap in the esthetic area: a preliminary randomized clinical trial

[M. Tonelli](#), S. Cei, M. Gabriele, F. Graziani

Use of a collagen matrix for the treatment of multiple gingival recessions: preliminary data

[S. Cei](#)¹, S. Gennai¹, F. Graziani¹, M. Gabriele¹, M. Tonetti² (Pisa¹, Genova²)

Effetto della intra-marrow penetration sulla risposta ossea nel trattamento ricostruttivo di difetti infraossei mediante amelogenine

Studio clinico prospettico randomizzato a 12 mesi

[A. Crea](#)¹, C. Littarru², G. Paolantoni³, D. Capri⁴, G. Vittorini Orgeas², C. Lajolo², I. Bignozzi², L. Landi², R. Saviano³, G. Deli², D.N. Tatakis⁴ (Viterbo¹, Roma², Napoli³, Ohio – USA⁴)

Discussione

12.35 – 13.05 **Sessione TERAPIA IMPLANTARE 1**

Clinical, radiographic and microbiological evaluation of implants with different collar treatments

[A. Quaranta](#), G. Rappelli, M. Piemontese, O. D'Isidoro, M. Procaccini (Ancona)

Prevalence of biological complications in implantology

[L. Gloazzo](#), L. Bevilacqua, F. Costantinides, L. Petris, G. Castronovo (Trieste)

Short and ultrashort locking-taper implants placed in posterior areas of maxilla and mandible: results at 2 years of loading

[J. Pighi](#), G. Corrocher, F. Faccioni, I. Gaspari, G. Lombardo (Verona)

Immediate functional loading of implants with two different necks in single-tooth replacement: a 1-year prospective clinical study

[C. Verrusio](#)¹, D. Farronato², V. Iorio Siciliano¹, M. Matarasso¹, C. Cafiero¹, M. Nicolò¹ (Napoli¹, Varese²)

Discussione

13.05 – 13.25 **Sessione TERAPIA IMPLANTARE 2**

Clinical evaluation of locking-taper implants placed in esthetic areas: results at 3-years

[G. Corrocher](#), J. Pighi, F. Faccioni F., G. Lombardo (Verona)

Comparative evaluation of the effect of implant length and crown height in the edentulous maxilla: a three-dimensional finite element analysis

[N. Cavalli](#), S. Corbella, G. Casaroli, F. Galbusera, T. Villa, L. Francetti (Milano)

13.25

Conclusioni
