# Welcome to Milan

On behalf of the European Association for Osseointegration, it is our pleasure to announce that the EAO's 30th annual scientific meeting will take place in Milan, Italy, 14-16 October 2021. The meeting will be organised in cooperation with the main Italian societies; the Italian Society of Periodontology and Implantology (SiDP) and the Italian Academy for Osseointegration (IAO).

This joint meeting promises to be the largest international meeting held in Italy, with thousands of delegates from all over the world, making it a landmark in the field of implant dentistry. For the first time ever, we are delighted to welcome Israel as our guest country. Delegates from the invited country will be able to register at discounted rates, and we are looking forward to welcoming a significant number of delegates to Milan. We will also run in parallel a very sought-after hygienist programme organised by the Italian Society of Periodontology, a landmark for periodontists and hygienists in Italy.

The joint effort of the three academies will bring together innovation, science and top-notch speakers to share their insights on important topics in the fields of dental implants and prosthodontics. Other inter-arch disciplines will be presented too, making this a really unique and rich programme which will be held in the brand-new convention centre in the fashionable city of Milan.

An exciting programme will also be on offer for the younger generation of dentists ranging from lectures and hands-on workshops to networking events.

Corporate partners and sponsors of Milan 2021 will be able to meet congress delegates face-to-face and establish important and meaningful relationships.

We hope you can join us in Milan for this global event and help us inspire the future of implant dentistry.
